

## QuickDASH (QD)

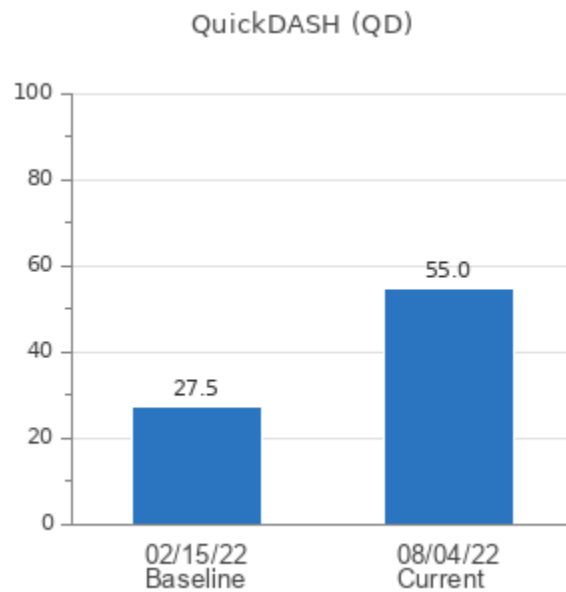

**Date of Test:** 08/04/22  
**Patient:** John Mayer  
**Case:**  
**Date of Birth:** 07/21/1964  
**Referred by:** Spine & Sport

**Purpose:** The Disabilities of the Arm, Shoulder, And Hand (QuickDASH) is an assessment designed to provide information about how your symptoms as well as your ability to perform certain activities. It yields a disability score ranging 0% to 100% in which a higher score equals more disability.

Your current QD score is: **55.0%**  
Your QD score at baseline assessment on February 15, 2022 was: **27.5%**

Serial testing from baseline to current demonstrates a change of 27.5% in functional ability.

This is a decline in status.

**Categories:** 0%: No disability; 100%: Full disability

**Minimum Clinically Important Difference (MCID):** 9-11 points
